Kim Young Named New President/CEO for Share One, Inc.

Young climbed the ranks of Share One over the past 20 years to lead the core processing solutions company servicing credit unions across the nation

MEMPHIS, Tenn., August 11, 2022 – Share One, a credit union service organization and leading developer of credit union core processing software, announced today Kim Young as the new President/CEO to oversee a 40-year history of serving an expanding base of credit unions. Young brings more than 28 years of experience having spent the last 20 with Share One where she most recently served as the Interim President/CEO.

“The Board is pleased with Kim’s performance and is confident in her ability to lead Share One into the future,” said Jerry Williams, Share One Board Chairman. “Effective immediately, Kim is President/CEO of Share One. Share One offers a solid core system that scales to credit unions of all sizes.”

As President/CEO, Young will oversee a team of 87 employees providing core processing solutions to credit unions across the nation who manage from \$10 million to over \$2 billion with more than 920,000 memberships.

Young started at Share One in 2002 as a customer service representative and was instrumental in the creation and first installation of NewSolutions, the core processing system developed by Share One and still used today. She has held a variety of roles since including Customer Service Manager, Conversion Project Manager, and Quality Assistance for NewSolutions and the NSMobile Team before being named Chief Operation Officer in 2018. While serving as Interim President/CEO, Young has been focused on process improvement, aligning employees with the right roles, and overseeing ongoing Real-Time Payments and mobile application projects.

“I’m excited and thankful for this opportunity to serve Share One as President/CEO and I look forward to continuing to grow our vision and promise of making innovation personal and comprehensive for our credit union partners,” said Young. “Having joined Share One almost 20 years ago as a customer service representative, it is a dream come true to lead this company that continues to be a leading developer in core processing software.”

In addition to her professional experience, Young serves on the board of Ridgewood Park UMC’s Children’s Ministry Admin Counsel and has served as a volunteer youth leader for nearly a decade with a worship camp. Young is also active in education serving as the PTA Treasurer for Robert T. Hill Middle School and Bryan Adams Leadership Academy.

Share One has spent more than four decades serving credit unions across the country with powerful, comprehensive core processing systems that's bolstered by a consistent history of growth, profitability, and accountability.
